

# GABRIEL ANDREAS PANGIHUTAN HUTAPEA

East Jakarta, Indonesia | gabandreas32@gmail.com | [github.com/gabandreas](https://github.com/gabandreas)

## SUMMARY

Fresh graduate in Information Technology with hands-on experience in front-end development. Skilled in building dynamic web applications, integrating APIs, and translating design mockups into responsive interfaces. Eager to contribute to a collaborative development team while continuing to grow professionally.

## SKILLS

**Programming & Frameworks:** Laravel (MVC), PHP, JavaScript, HTML, CSS, MySQL

**Web Tools:** WordPress, Elementor, WooCommerce

**Development Practices:** API Integration, Responsive Design, Git/GitHub

**Soft Skills:** Collaboration, Problem-Solving, Adaptability

## WORK EXPERIENCE

Junior Web Developer Intern PT. Pratama Link — Sept 2024 – Feb 2025

- Developed web-based Hospital Information System.
- Implemented front-end from pre-designed UI mockups.
- Integrated APIs for data submission, retrieval, editing, and deletion.
- Collaborated with back-end and design teams using Laravel MVC pattern.

## PROJECT & PORTFOLIO

### Landing Page for Rockie Clothes

- Built with WordPress + Elementor + WooCommerce to support e-commerce-ready promotions.

### Seminar Group Project – "Beads By Acell"

- Collaborated in a 6-person team to create a web-based seminar registration system with integrated product showcase.

### Final Year Project – Serena Print Solution

- Designed and developed a Laravel-based landing page to promote digital printing machines, highlighting product catalog and service features.

### Creative Website Portfolio

- Collection of personal and academic projects showcasing front-end and full-stack capabilities.
- [Website Portfolio](#)

EDUCATION August 2022 – August 2025

### Brawijaya University – Information Technology

Specialization: Digital Business & E-Commerce

- Final Project: Design and Development of a Laravel-Based Landing Page for Promoting Digital Printing Machines by Serena Print Solution
